Product Overview

High-Performance Outdoor Rental LED Solution

This outdoor LED screen is engineered specifically for rental applications, offering high-resolution visuals with pixel pitch options of P6.67 and P6.25. Built with a robust die-casting aluminum cabinet, the system ensures excellent heat dissipation and structural integrity for reliable performance in diverse weather conditions. Its modular design allows for rapid installation and dismantling, making it an ideal choice for events, concerts, and outdoor advertising displays.

Technical Specifications

Primary Application

Outdoor • Rental • Events • Advertising

Pixel Pitch Options	P6.67, P6.25
Cabinet Material	Die-casting Aluminum
Installation	Hanging

Key Features

Performance Highlights

6.67 mm

Pixel Pitch (Option 1)

6.25 mm

Pixel Pitch (Option 2)

Design Advantages

- Efficient heat dissipation
- High structural integrity
- Easy installation and dismantling
- Weather-resistant design
