

Packaging Machinery

Packaging machinery automates the process of wrapping, sealing, and labeling products. It is used to improve efficiency and reduce labor costs in manufacturing and distribution.

Overview

Modern Induction Cooktop

This double burner induction cooktop combines sleek design with high-performance heating technology. Featuring a durable black glass surface, it offers two independent cooking zones equipped with intuitive touch controls and digital displays. It is an ideal solution for efficient, precise, and modern culinary environments.

Technical Specifications

Number of Burners	2
Surface Material	Black Glass

Features

Heating Technology

Induction • Efficient Heating • Precise Temperature Control

Control Interface	Touch Controls
Display	Digital Display
