

Packaging Machinery

Packaging machinery automates the process of enclosing products for distribution. These machines prepare items for shipping, storage, and sale.

Overview

Industrial Shipping Container

This 40-foot intermodal shipping container is engineered for the secure transport of industrial machinery and heavy parts. Constructed from durable, corrugated steel, it provides robust protection against environmental elements during transit. Its design supports seamless intermodal logistics, allowing for efficient transfer between maritime, rail, and road transport systems.

Physical Specifications

Exterior Finish

Blue

Container Type

40-foot Intermodal Shipping Container

Construction Material

Corrugated Steel

Logistics & Handling

Primary Applications

- Machinery transport
- Industrial parts storage
- International shipping

Handling Features

Corner Castings, Intermodal Compatible
