

Panel Mount TV Aerial Socket

Female TV aerial socket designed for panel mounting. It features a white plastic housing and a metal mounting plate, secured with four screws for a reliable connection.

Product Overview

Professional Panel Mount TV Socket

This female TV aerial socket is engineered for secure panel mounting in custom television systems and professional cable repair applications. Featuring a robust white plastic housing combined with a durable metal mounting plate, it provides a stable and reliable termination point for coaxial cables. Its four-screw mounting design ensures a rigid fit suitable for industrial and custom enclosure installations.
