Product Overview

High-Performance Twist Drill Bit

This high-speed steel (HSS) twist drill bit features a full ground flute design, engineered for efficient chip evacuation and reduced friction during operation. Equipped with a parallel shank, it ensures a secure grip in the chuck and delivers precise drilling performance. It is a versatile tool suitable for creating accurate, burr-free holes in a wide range of materials, including steel, aluminum, wood, and plastic.

Technical Specifications

Material	High-Speed Steel (HSS)
Shank Type	Parallel Shank
Key Features	Full Ground Flute, Efficient Chip Evacuation, Reduced Friction, Burr-free Drilling

Application

Compatible Materials

- Steel
- Aluminum
- Wood
- Plastic
