Perforated Pizza Pan with Non-Stick Coating

This pizza pan is constructed from metal and features a non-stick coating. It has evenly spaced perforations for optimal heat distribution and a crispy crust.

Product Overview

Professional Perforated Pizza Pan

This professional-grade pizza pan is engineered with a specialized perforated design to facilitate optimal airflow, ensuring a perfectly crispy crust every time. The durable construction features a high-quality non-stick coating, which minimizes cleanup time and prevents sticking during high-volume baking. Designed for efficiency and consistency, this pan is an essential tool for commercial kitchens and pizzerias looking to maintain high standards of pizza preparation.
