

Personal Air Purifier for Immediate Surroundings

This compact air purifier is designed for personal use. It improves air quality in the user's immediate surroundings.

Product Overview

Personal Air Purification

This portable air purifier is designed to create a clean, refreshing environment in your immediate surroundings. By utilizing negative ion generation technology, it effectively helps neutralize soot, odors, and airborne bacteria. Compact and wearable, it is an ideal solution for individuals, students, and children to maintain air quality wherever they go.
