

Personal Cooling Fan with Adjustable Tilt

Compact and portable electrical fan designed for personal cooling. Features a protective grill, adjustable tilt, and a DC power adapter for versatile use in cars, trucks, or boats.

Product Overview

Compact Personal Cooling Solution

This portable electrical fan is engineered for effective personal cooling in confined spaces. Its durable plastic construction ensures long-lasting performance, while the adjustable tilt feature allows users to direct airflow precisely where it is needed most. Designed for versatility, it is an ideal cooling solution for vehicles such as cars, trucks, and boats.
