

Personal Cooling Fan with Metal Stand

This compact fan is designed for personal cooling in small spaces. It features a durable metal construction with a circular cage for safety and a sturdy metal stand for stability.

Product Overview

Compact Cooling Solution

This personal cooling fan is engineered for efficiency and durability, featuring a robust metal construction that ensures long-lasting performance. Its compact design and sturdy metal stand make it an ideal choice for personal use in small workspaces or desktop environments. With a circular safety cage and multiple fan blades, it provides consistent airflow while maintaining a sleek, professional appearance.
