Product Overview

Compact Personal Air Purification

This personal HEPA air purifier is designed for high-efficiency air cleaning in confined spaces such as cars, offices, or small rooms. It features a robust metal housing and utilizes advanced H13 HEPA filtration combined with UVC LED sterilization technology. Engineered with a silent DC brushless motor, it provides a quiet and energy-efficient solution for removing pollutants like pollen, dust, and formaldehyde.

Technical Specifications

Power Input	DC5V-1A
Power Consumption	3 W
Weight	396 g
Charging Interface	Micro USB
Housing Material	Metal

Performance Metrics

Effective Coverage Area

1 m² Minimum Area	3 m² Maximum Area
--	--

Filtration & Sterilization

Sterilization Technology

UVC LED • DNA/RNA Destruction

Filtration Layers	HEPA H13, Four-layer system, Photocatalyst filter
-------------------	---

Features

Key Benefits

- Silent operation
- Energy efficient
- Portable design
- Removes pollen, dust mites, and formaldehyde

Motor Technology

DC Brushless Motor
