

Personal Space Heater with Adjustable Stand

This compact space heater is designed for personal use. It features a durable plastic housing, front grill, and adjustable stand for versatile positioning.

Overview

Compact Personal Heating Solution

This personal space heater is designed for focused, localized warmth in small environments such as offices or personal workstations. Featuring a robust black plastic housing and an adjustable stand, it allows users to direct airflow precisely where needed. Its portable design ensures easy placement, making it an efficient choice for maintaining comfort during colder periods.

Design & Build
