

Personal Space Heater with Fan

This compact space heater is designed for personal use. It features a front-facing heating element with a protective grill and a top-mounted fan for distributing warm air.

Product Overview

Compact Personal Warmth

This portable space heater is engineered for efficient localized heating in small personal spaces. Featuring a sleek metallic silver finish and a stable tabletop base, it integrates seamlessly into any office or home work environment. Dual control knobs provide intuitive adjustment, while the integrated fan ensures consistent air distribution for maximum comfort.
