

Plastic Backing Sanding Pad with Hook and Loop

This sanding pad features a durable plastic construction for long-lasting performance. The hook and loop attachment system allows for quick and easy abrasive disc changes.

Product Overview

Professional Sanding Pad Solution

This high-quality plastic backing sanding pad is engineered for demanding sanding applications across automotive, woodworking, and metalworking sectors. It features a robust plastic construction designed for long-lasting durability and consistent performance under pressure. The integrated hook and loop system allows for rapid and secure abrasive disc changes, maximizing efficiency during multi-stage finishing projects.

Technical Specifications

Diameter	100 mm
Attachment System	Hook and Loop (Velcro)
Material	Durable Plastic

Applications

Suitable Industries	Automotive, Woodworking, Metalworking
---------------------	---------------------------------------

Features

Key Benefits

- Quick abrasive disc changes
- Secure and reliable hold
- Durable construction
- Smooth finish capability
