

Plastic Bag Making Machine

This high-speed machine is designed for efficient production of various plastic bag types. It utilizes automatic sealing and cutting mechanisms with precise temperature control.

Product Overview

High-Speed Plastic Bag Production

This high-speed plastic bag making machine is engineered for the efficient production of various bag types, offering reliable performance for industrial packaging needs. It features advanced automatic sealing and cutting mechanisms, ensuring consistent output quality. With precise temperature control and adjustable settings, it provides the versatility required for diverse manufacturing requirements.

Technical Capabilities

Key Features

- Automatic sealing mechanism
- Automatic cutting mechanism
- Precise temperature control for welding
- Adjustable bag size settings
- Adjustable thickness settings
- User-friendly control panel

Compatible Materials

Polyethylene (PE), Polypropylene (PP), Thermoplastic materials

Application

Industry Applications

Food Industry • Textile Industry • Packaging Industry
