

Pneumatic Air Blow Gun

This high-pressure air blow gun is designed for efficient dust and debris removal. Its ergonomic handle ensures comfortable operation and precise control.

Product Overview

High-Performance Air Blow Gun

This pneumatic air blow gun is designed for efficient removal of dust and debris in industrial and workshop environments. Featuring a durable construction and an ergonomic PVC handle, it offers precise control and comfort during extended use. The angled nozzle design ensures easy access to tight spaces, making it an ideal tool for cleaning machinery, equipment, and various work surfaces.

Technical Specifications

Working Pressure

150 PSI

Max Pressure

Inlet Connection

G1/4"

Design & Build

Handle Material

PVC

Key Features

Ergonomic Grip, Angled Nozzle, Durable Construction
