

Pneumatic Wheel Garden Dump Cart

This garden dump cart features a dumper function, pneumatic tires and steering axle. It has a robust metal frame and a rust-proof, easy-to-clean plastic tub.

Overview

Efficient Material Transport

This heavy-duty garden dump cart is designed to simplify the transport of soil, fertilizer, wood, and other heavy supplies. Featuring a rust-resistant poly bed and a durable steel frame, it is built for long-term reliability in demanding outdoor environments. The inclusion of a steering axle and pneumatic tires ensures smooth maneuverability, allowing users to save time and effort during daily tasks.

Construction & Materials

Bed Material	Polyethylene (Rust Resistant)
Frame Material	Steel
Finish	Green

Mobility & Handling

Wheel Diameter	10 in
Wheel Type	Pneumatic, Ball Bearing
Steering Mechanism	Yes
Handle Design	Straight, ergonomic for pulling comfort

Features

Key Features

- Quick-dump feature for easy unloading
- Rust-resistant poly bed
- Heavy-duty steel frame
- Steering axle for maneuverability
