

Pneumatic Wheelbarrow with Plastic Tray

This wheelbarrow features a black plastic tray and steel handles. Its pneumatic tire ensures stability and easy movement, making it suitable for various tasks.

Product Overview

Industrial Strength Utility

This 120L industrial-grade wheelbarrow is engineered for demanding trade and construction environments. Featuring a high-capacity, 3.0mm thick polypropylene tray and a robust steel frame, it balances durability with ease of use. The inclusion of a pneumatic tire ensures smooth maneuverability even when fully loaded, making it an essential tool for landscaping, gardening, and heavy-duty site work.

Specifications

Capacity	120 L
Tray Thickness	3 mm
Tire Specification	16X4.00-8 4PLY Pneumatic
Tray Material	Polypropylene (PP), Impact Resistant

Key Features

Key Features

- 120L high-volume tub
- Pneumatic tire for terrain versatility
