Overview

Professional Portable Power Solution

This portable gasoline generator is engineered for reliability and performance in demanding environments. Featuring a 4-stroke, OHV air-cooled engine, it delivers a versatile power range of 1.0kW to 9.0kW to suit various operational needs. With built-in safety mechanisms like automatic voltage regulation and oil alert systems, it provides a stable and protected power source for professional applications.

Technical Specifications

Rated Power Range	1.0kW - 9.0kW
Engine Type	4-stroke, OHV (overhead valve), single cylinder, air-cooled
Output Voltage	220 V
Engine Power	7.5 HP

Safety & Protection

Safety Features	Automatic Voltage Regulation, Over-voltage Protection, Overheat Protection, Overload Protection, Low Oil Alert System, Circuit Breaker
Quality Assurance	Yes

Certifications

Certifications
CE • EURO V • EPA • ISO 9001:2015

Configuration Options

Customization Options

- Wheels and handles
- Recoil start
- Electric start
- Single phase
- Three phase
- OEM available

Warranty & Support

Warranty

2 years or 600 continuous working hours
