Overview

Reliable Portable Power

This portable gasoline generator provides a dependable power solution with a rated output of 2.2kW, ideal for various professional and field applications. Engineered with a 4-stroke, air-cooled OHV engine, it ensures consistent performance and durability. The unit features advanced safety mechanisms including automatic voltage regulation (AVR), overload protection, and a low-oil alert system, ensuring both operator safety and equipment longevity.

Performance & Technical

Rated Power	2.2 kW
Engine Type	4-stroke, OHV, single cylinder, air-cooled
Engine Power	7.5 HP
Rated Voltage	220 V
Frequency	50 Hz
Noise Level	95 dB

Features & Safety

Safety Systems

- Automatic Voltage Regulation (AVR)
- Over-voltage protection
- Overload protection
- Low-oil alert system
- Circuit breaker

Battery Technology

Lithium-ion

Certifications

CE, EURO V, EPA, ISO 9001:2015

Operational Details

DC Output

12 V

Voltage

8.3 A

Current

Available Options

- Wheels and handles
- Recoil start
- Electric start
- Single phase
- Three phase

Warranty Coverage

2 years or 600 working hours
