

Portable 360-Degree Emergency Lantern

This portable lantern provides 360-degree illumination for emergency and security situations. It features a robust design with a transparent cylindrical housing and a sturdy carrying handle.

Product Overview

Versatile Emergency Lighting

The TK-06 emergency lantern is a robust, portable lighting solution designed to provide reliable 360-degree illumination during power outages or outdoor activities. It features a versatile dual-mode operation for single or double tube usage and is equipped with built-in discharge and overcharge protection. With its sturdy metal handle and integrated stand, this unit ensures stable and convenient light placement whenever needed.
