

Portable Bluetooth Speaker with LED Illumination

This portable Bluetooth speaker features dual woofers, LED illumination, and a robust enclosure. It supports wireless audio streaming via Bluetooth, USB, SD card, and FM radio, and includes a rechargeable battery, microphone input, and carry handles.

Overview

High-Performance Portable Audio Solution

This portable Bluetooth speaker is designed for versatile audio performance, featuring dual 8-inch woofers with vibrant LED illumination. It offers a powerful 25W output and a built-in rechargeable lithium battery, making it an ideal choice for outdoor events, parties, and karaoke sessions. With multiple connectivity options including Bluetooth, USB, and SD card playback, it provides a comprehensive entertainment experience in a robust, mobile enclosure.
