

Portable Bluetooth Speaker with Light Show

This portable Bluetooth speaker allows for wireless audio streaming. It features a carrying strap, a perforated grill, and an illuminated base for a visually appealing light show during playback.

Overview

Dynamic Audio with Integrated Light Show

This portable Bluetooth speaker delivers a powerful 25W output through a 6.5-inch speaker unit, ensuring clear and impactful sound for any professional or social setting. Designed for versatility, it features a built-in light show that creates an engaging visual atmosphere during audio playback. With integrated hands-free calling and a rechargeable lithium battery, it offers a complete wireless solution for high-quality mobile audio.
