

Portable Card Speakers

Compact card speakers designed for portability. These speakers have a rectangular design, control panel and audio output ports, making them ideal for personal listening.

Product Overview

Compact Portable Audio Solution

These portable card speakers are designed for users who prioritize mobility and convenience without sacrificing audio functionality. Featuring a slim, rectangular form factor, they are perfectly suited for on-the-go listening and personal audio playback. The integrated control panel and dedicated audio output ports ensure ease of use in a variety of environments.
