

Portable Concrete Cut-Off Saw

This portable cut-off saw is designed for cutting materials like concrete, asphalt, and metal. It is equipped with a gasoline engine, diamond blade, water tank, and wheeled chassis.

Product Overview

Professional Grade Cutting Power

This portable concrete cut-off saw is engineered for high-performance cutting in demanding environments, including road construction, landscaping, and emergency rescue operations. Powered by a robust 65cc 2-stroke engine, it delivers consistent power for cutting through concrete, stone, and asphalt. Designed with the professional user in mind, it combines a high-speed output of 8500rpm with ergonomic handling to ensure efficiency and precision on the job site.

Engine Specifications

Maximum Output

3 kw

Power

4 HP

Horsepower

Engine Type	Single-cylinder, 2-stroke, air-cooled
Displacement	65 cc
Engine Speed	8500 rpm
Fuel Mix Ratio	50:1
Fuel Tank Capacity	1.5 L

Cutting Performance

Compatible Blade Diameters	12 inch, 14 inch
Maximum Cutting Depth	115 mm

Physical Attributes

Net Weight	12.5 kg
Packaging Dimensions	70.5 x 35.5 x 48 cm

Applications

Primary Applications

- Landscaping
- Road working
- Concrete building construction
- Stone cutting
- Emergency rescue
- Disaster relief
