

Portable Concrete Mixer with Tilting Drum

This portable concrete mixer is designed for efficiently mixing concrete, mortar, and similar materials on construction sites. It features a robust steel frame, a rotating drum, and a tilting mechanism for easy pouring.

Product Overview

Professional Portable Concrete Mixer

This heavy-duty portable concrete mixer is engineered for efficiency in small to medium-sized construction projects. Featuring a robust 180L steel drum and a powerful 800W motor, it ensures consistent mixing of concrete, mortar, and other building materials. Its tilting drum design allows for controlled pouring, while the integrated wheels provide excellent maneuverability across various job sites.

Technical Specifications

Motor Power

800 W

Power Output

4 pole

Pole Motor

Drum Capacity	180 L
Mixing Speed	29 rpm
Voltage Requirements	220V-240V / 50Hz

Construction & Design

Drum Build

Component	Specification
Drum Diameter	600mm
Upper Thickness	1.5mm
Lower Thickness	2.0mm

Key Features	Heavy Duty Steel, Cast Iron Gear Ring, Round Handle, Tilting Mechanism, Portable
