Product Overview

Reliable Diesel Water Transfer

This portable diesel-powered water pump is engineered for efficient drainage and irrigation in demanding environments. Featuring a robust protective frame, it is designed for durability and ease of transport, making it an ideal solution for agricultural and construction sites where electricity is unavailable. Its reliable engine ensures consistent performance for critical water management tasks.

Technical Specifications

Inlet & Outlet Diameter	2 inches
Model ID	PD50(E)

Key Features

Design Highlights

- Robust protective frame
- Portable and compact design
- Diesel-powered for remote operation
- High performance in demanding environments

Best For	Agriculture, Construction, Emergency Drainage, Irrigation
