

Portable Earth Auger Drill

This ground drill is a powerful and efficient tool designed for creating holes in the ground quickly. It is ideal for various applications such as planting trees, installing fences, and soil sampling.

Overview

Portable Earth Auger Drill

This portable earth auger drill is a powerful and efficient tool designed for rapid hole creation in various soil conditions. Powered by a reliable 49cc two-stroke gasoline engine, it offers the performance needed for planting trees, installing fence posts, and soil sampling. Its ergonomic design ensures comfortable operation, making it an ideal choice for both professional contractors and serious DIY users who require portability and consistent power.

Engine Specifications

Engine Power

1.46 kW

Power Output

7000 r/min

Max Speed

Engine Model	1E44-5
Engine Type	Air-cooled, two-stroke, single cylinder gasoline
Displacement	49 cc
Carburetor Type	Pump-film type
Fuel/Oil Mixing Ratio	25:1
Idling Speed	280 r/min
Fuel Tank Capacity	1200 ml

Drilling Capabilities

Available Drill Diameters	100mm, 150mm, 200mm
