

Portable Electric Fan with Multiple Speed Settings

This is a portable electric fan with a circular grill design enclosed in a rounded square frame. It features multiple speed settings controlled by top-mounted buttons and a sturdy base.

Product Overview

Compact Air Circulation Solution

This portable electric fan is designed for efficient air circulation and ventilation in compact spaces. Featuring a circular grill enclosed within a rounded square frame, it combines safety with a modern, stable design. With user-friendly top-mounted controls, it offers multiple speed settings to suit various cooling needs, making it an ideal choice for personal or small-area use.
