

Portable Electric Space Heater

This portable electric space heater is designed for personal use. It features adjustable temperature and fan speed settings to provide supplemental heat to small spaces.

Overview

Compact Comfort Solution

The FH-801 is a portable electric space heater engineered for efficient personal heating in small spaces. Featuring a durable white plastic housing with an integrated handle, this unit is designed for easy transport and versatile placement. It utilizes a fan-forced heating system to quickly circulate warm air, providing immediate supplemental heat exactly where you need it.
