

Portable Electric Space Heater with Red Metal Housing

This portable electric space heater is designed for indoor use. It features a red metal housing with a protective wire mesh front.

Overview

Industrial Heating Performance

This portable electric space heater features a robust red metal housing designed for durability in demanding environments. Equipped with a high-efficiency spiral heating element protected by a wire mesh front, it provides reliable and localized warmth. Its compact design and intuitive control interface make it an ideal solution for heating workshops, garages, and indoor workspaces.
