Product Overview

Industrial-Grade Portability

This portable electric welding machine is engineered for versatility, serving both professional on-site tasks and workshop requirements. Its robust construction features a durable housing with reinforced corner protectors to withstand demanding industrial environments. Designed for ease of use, the unit includes an intuitive control panel for precise parameter adjustments, making it an essential tool for various welding applications.

Physical Characteristics

Housing Colors

Yellow • Black • Orange • Gray

Design Features

Portable, Top Handle, Compact Design, Reinforced Corners

Performance & Control

Control Interface

- Adjustable control knob
- Status indicator lights

Application Suitability

- Professional welding projects
- DIY welding projects
- On-site construction
- Workshop use
