

Portable Evaporative Air Cooler for Household and Commercial Use

This portable evaporative air cooler is designed for both household and commercial use, suitable for various settings. It provides efficient cooling through water evaporation, offering an energy-saving alternative to traditional air conditioners.

Product Overview

Efficient Cooling Solution

This portable evaporative air cooler is engineered for versatile use in both household and commercial environments, including offices, restaurants, and retail stores. By utilizing the natural process of water evaporation, the unit provides an energy-efficient alternative to traditional air conditioning systems. Its compact, mobile design ensures it can be easily repositioned to meet changing cooling needs, making it a practical choice for various indoor and outdoor settings.

Key Features

Design & Usability

- Digital control panel
- Visible water level indicator
- Smooth-rolling casters for mobility
- Compact form factor

Suitable Environments

Household, Commercial, Office, Restaurant, Retail Store, Outdoor
