

Portable Gasoline Generator

This gasoline generator is a portable power solution suitable for various applications. It features a robust engine, an easy-to-use control panel with multiple outlets, and a durable frame ensuring protection and portability.

Product Overview

Reliable Portable Power Solution

This portable gasoline generator is engineered for consistent performance using advanced brushless technology and capacitor-based voltage regulation. Designed to minimize maintenance needs, it eliminates the requirement for carbon brush replacements. Its robust construction makes it an ideal power source for homes, villas, construction sites, and marine applications.

Key Features

Features

Brushless Technology, Stable Voltage Output, Maintenance-Free Design, Durable Frame, Overload Protection, Low Oil Shutdown

Technical Specifications

Performance Metrics

2700 W

Rated Power Output

Powerable Equipment

- Lighting systems
- Stoves
- Refrigerators
- Power tools

Applications

Recommended Use Cases

- Residential Emergency Backup
- Villas
- Construction Worksites
- Marine/Ship Power
- Camping and Outdoor Appliances
