

Portable Gasoline Generator

This gasoline generator is designed for portable power solutions. It features a durable frame for protection and delivers reliable AC power for various applications.

Overview

Compact Portable Power

This portable gasoline generator provides a reliable and efficient power solution for diverse needs, ranging from residential backup to outdoor use. Engineered with a durable frame for enhanced protection and easy transport, the unit ensures dependable performance in various environments. It features an integrated safety system that automatically manages engine health, providing peace of mind during operation.

Performance

Power Output

1 kW

Maximum Output

0.85 kW

Rated Output (50Hz)

1 kW

Rated Output (60Hz)

Technical Specifications

Engine Model	YM154 gasoline engine
Phase	Single phase

Safety & Features

Safety Systems	Low oil alarm system, Automatic engine shutdown, Protective frame
