

Portable Gasoline Generator Set

This portable gasoline generator set provides electrical power in remote locations and during outages. It features a compact design, easy start mechanism, and reliable performance for powering small appliances, tools, and lighting.

Product Overview

Compact Portable Power Solution

This portable gasoline generator set is engineered to provide reliable electrical power for remote locations, outdoor activities, or emergency backup needs. Featuring a compact 2-stroke air-cooled engine, it delivers a consistent power output suitable for small appliances, lighting, and essential tools. Its lightweight design and efficient fuel consumption make it an ideal choice for camping, construction sites, and quick-response power requirements.

Engine Specifications

Engine Displacement	63 cc
Rated Power Output	1.3 kW
Engine Type	Air-cooled 2-stroke OHV
Ignition System	Recoil and hand-operated/Electric start

Generator Performance

Key Performance Metrics

0.65 kW Rated AC Output	0.8 kW Max AC Output	57 dB Noise Level (at 7m)
Fuel Tank Capacity	4.2 L	
Continuous Operation	5 H	

Physical Dimensions

Physical Specifications

Attribute	Value
Dimensions (LxWxH)	380x315x319 mm
Dry Weight	17.5 kg

Certifications & Logistics

Certifications	CE
