

Portable Gasoline Generator with 230V AC and 12V DC Output

This portable generator provides reliable power for various applications. It features a 5.5 HP engine with electronic ignition and offers both AC 230V and DC 12V outputs.

Overview

Reliable Portable Power

This portable gasoline generator is engineered for dependable power generation in demanding environments. Featuring a robust 4-stroke, single-cylinder engine with forced air cooling, it delivers consistent output for both AC and DC needs. Designed for safety and ease of use, it includes integrated electronic ignition and an oil alert system to ensure long-term engine health.

Technical Specifications

Generator Configuration

Feature	Detail
Rated Frequency	50/60 Hz
Power Factor	1.0
Voltage Regulation	AVR
Starting Method	Manual

Output Options	230V AC, 12V DC, 110V AC, 240V AC
----------------	-----------------------------------

Engine Specs

Engine Type	Single cylinder, 4-stroke, forced air cooled
Oil Capacity	0.6 L
