

# Portable Gasoline Generator with 230V AC and 12V DC Output

This gasoline generator provides a reliable source of AC and DC electrical power. It features a 230V AC output for standard appliances and a 12V DC output for charging batteries.

## ADDITIONAL IMAGES

## Overview

### Reliable Portable Power Solution

This portable gasoline generator is designed for versatility and reliability, offering a power range of 1.0kW to 9.0kW to suit various professional and emergency needs. Equipped with a 4-stroke, air-cooled OHV engine, it ensures efficient performance and durability in demanding environments. The unit features advanced automatic voltage regulation and comprehensive safety systems, including oil alerts and overload protection, making it a safe choice for powering sensitive equipment.

## Technical Specifications

### Rated Power Range

**1 kW**

Min Power

**9 kW**

Max Power

### Electrical Outputs

- 230V AC Output
- 12V DC Output (8.3A)

### Engine Configuration

4-stroke, OHV (overhead valve), single cylinder, air-cooled

## Safety & Compliance

### Safety Systems

AVR (Automatic Voltage Regulation) • Over-voltage Protection • Overload Protection • Overheat Protection • Low Oil Alert System

### Certifications

CE, EURO V, EPA, ISO 9001:2015

## Service & Options

### Available Options

- Wheels and handles
- Recoil start or electric start
- Single phase or three phase output
- OEM service available

### Warranty

2 years or 600 continue working hours
