

Portable Gasoline Water Pump for Irrigation

This portable water pump is designed for drainage and irrigation purposes. It features a gasoline-powered engine, a centrifugal pump, and a sturdy frame.

Overview

Professional Irrigation and Drainage Solution

This portable gasoline-powered water pump is engineered for high-performance agricultural and construction applications. Featuring a robust centrifugal pump design and a protective frame, it provides reliable water transfer and long-lasting durability. Its self-priming capability and focus on easy maintenance ensure consistent productivity in demanding field conditions.

Performance Metrics

Flow Rate

500 L/min

High Flow Performance

Technical Specifications

Model Number	WG200-25
Engine Type	Gasoline
Pump Type	Centrifugal

Features

Key Features	Self-Priming, Portable, Durable Frame, Easy Maintenance
--------------	---

Applications

Recommended Use

- Agricultural Irrigation
- Construction Site Drainage
- Water Transfer Projects
