

Portable Halogen and Fluorescent Emergency Light

This portable emergency light combines a high-intensity halogen spotlight with a fluorescent tube. Its durable red plastic construction includes a built-in handle and multiple mounting points.

Product Overview

Dual-Function Emergency Lighting

The TK-900 is a versatile portable emergency light designed for reliability during power outages and critical situations. It features both a high-intensity halogen spotlight for long-range illumination and a fluorescent tube for broad area lighting. Built with a durable casing and integrated handle, this unit provides automatic light-up functionality to ensure safety and visibility when needed most.
