

Portable Halogen Work Light with Adjustable Stand

This portable halogen work light provides bright and efficient illumination for various tasks. Its durable metal frame and adjustable stand offer stability and flexibility.

Product Overview

Professional Illumination Solution

This portable halogen work light is designed to provide bright, efficient, and focused illumination for demanding environments like construction sites and workshops. Built with a durable metal frame and an adjustable stand, it offers the stability and flexibility required for professional tasks. The unit features a protective grill to safeguard the bulb, ensuring longevity and reliability during rigorous use.

Technical Specifications

Light Source	Halogen
Frame Material	Durable Metal
Safety Features	Protective Grill, Stable Base

Design & Usability

Portability

- Adjustable stand for flexible positioning
- Compact design for easy transport
- Space-saving storage

Best For

Construction Sites • Workshops • DIY Projects • Professional Use
