

Portable Industrial Air Circulator Fan

This portable industrial fan is designed for efficient air circulation. It features robust construction, a wheeled base, adjustable height and tilt for customizable airflow.

Product Overview

Industrial Air Circulation Solution

The CIF-45CP is a high-performance portable industrial fan engineered for demanding environments like warehouses and workshops. Its robust construction and wheeled base ensure both long-term durability and effortless mobility across large floor spaces. With adjustable height and tilt settings, this unit provides precise, high-volume airflow exactly where it is needed most.

Key Features

Adjustability

- Adjustable Height
- Adjustable Tilt Angle
