

Portable Inverter Gasoline Generator

This portable inverter generator is designed for clean and quiet power. It provides stable AC output, making it suitable for sensitive electronics and various power tools.

Overview

Clean and Reliable Power

This portable inverter gasoline generator is engineered for clean, stable power delivery, making it an ideal choice for sensitive electronics and essential appliances. Featuring an advanced four-stroke engine and microcomputer-controlled inverter technology, it produces a pure sine wave output while maintaining low fuel consumption. Its compact, lightweight design and noise-reducing muffler ensure it is both highly portable and compliant with modern noise emission regulations.

Performance Metrics

Rated AC Output

1600 W Rated AC Output	120 V Voltage	60 Hz Frequency
----------------------------------	-------------------------	---------------------------

Starting Load Capacity	2.5 x operating output
-------------------------------	------------------------

Engine & Technical

Engine Type	Four-stroke
Technology	Microcomputer-controlled inverter
Output Waveform	Pure sine wave

Control & Connectivity

Control Panel Features

- Output indicator
- Overload alert
- Oil alert
- Smart throttle switch
- Choke control

Connectivity

Output Type	Rating
DC Output	12V / 5A
AC Output	20A

Design & Compliance

Key Attributes

Portable, Lightweight, Low Fuel Consumption, Quiet Operation
