

Portable Magnetic Drill Press

This portable drill press is designed for drilling holes in steel. It utilizes a powerful electromagnet for secure attachment to ferrous surfaces and offers variable speed control.

Overview

Portable Magnetic Drill Press

This portable magnetic drill press is engineered for precision drilling in steel and other ferrous materials, making it an essential tool for construction, fabrication, and on-site maintenance. Featuring a powerful 1200W motor and robust magnetic adhesion, it ensures stability and accuracy even in demanding environments. Its compact design allows for efficient operation in tight spaces, providing high performance for professional drilling tasks.

Technical Specifications

Motor Power	1200 W
Available Voltages	230V/50Hz, 120V/60Hz

Performance

No Load Speed

595 rpm
RPM

Magnetic Adhesion

13000 N
Adhesion Force

Drilling Capacity

Drilling Capacity

Type	Capacity
Hole Cutting (Dia x Depth)	35mm x 50mm
Twist Drilling	1.5 - 13mm

Physical Attributes

Tool Holder Size	19.05mm (3/4")
Stroke Length	190 mm
Net Weight	13.5 kg
