

Portable Mica Space Heater

This mica space heater is designed for indoor use, providing radiant warmth. It utilizes a mica heating element within a protective mesh and offers adjustable thermostat and power settings.

Product Overview

Efficient Radiant Heating

This portable mica space heater utilizes advanced micathermic heating technology to provide rapid and efficient warmth for indoor environments. Designed with safety and versatility in mind, the unit features a double-sided heating element and multiple heat settings to suit your comfort needs. Its lightweight, freestanding construction ensures easy portability, making it an ideal heating solution for various rooms.
