

Portable Oil-Free Air Compressor

This portable air compressor is designed for applications requiring compressed air. Its compact design includes an integrated handle for easy movement and storage.

Product Overview

Compact Performance

The ZBW60H is a portable air compressor engineered for versatility and ease of use in various environments. Its compact, oil-free design ensures clean air output while minimizing maintenance requirements. Equipped with an integrated handle and vibration-dampening feet, this unit provides a stable and convenient solution for DIY tasks, tire inflation, and powering light pneumatic tools.

Technical Specifications

Model Number	ZBW60H
Compressor Type	Oil-Free

Design & Build

Portability	Compact Design, Integrated Handle, Rubber Vibration-Dampening Feet
Cooling	Yes

Applications

Primary Applications

- DIY Projects
- Tire Inflation
- Pneumatic Tool Operation
