

Portable Outdoor Bluetooth Speaker with Long Standby

This portable speaker provides stereo sound without the need for a power supply. Its extended standby time and clear sound quality make it suitable for outdoor use.

Product Overview

Versatile Portable Audio Solution

This portable Bluetooth speaker combines a stylish MDF wooden cabinet with a durable metal grille, making it perfect for both indoor and outdoor environments. Engineered with a powerful digital amplifier, it delivers a 20W output with five distinct EQ sound effects to match your audio preference. With a built-in 2000 mAh rechargeable lithium battery and multi-source input options, it ensures consistent performance and connectivity for any occasion.
