Overview

HOME OXYGEN CONCENTRATOR
The Oxygen Concentration Is 90% ± 3%

- Split structure, easy installation
- Oxygen concentration 90% ± 3%
- On board 2L high flow
- Pulse oxygen supply
- Can be customized
- Current overload protection
- Charge by day and hour
- Complimentary Backpack
- Atomization function

Compact design with split structure for easy installation and portability.

Portable Oxygen Concentrator

This high-flow portable oxygen generator is designed for versatility, supporting both vehicle and home use with an included 220V to 12V adapter. It features a split structure for easy installation and includes a dedicated backpack for effortless portability. With adjustable flow settings and advanced safety protections, it provides a reliable solution for oxygen therapy on the go.

Performance

PULSE OXYGEN SUPPLY

5 Levels Of Oxygen Supply Can Be Switched Freely

User-friendly digital interface with clear oxygen concentration and flow rate indicators.

Flow Rate Range	6 L/min
Oxygen Concentration (at 2L/min)	93%
Output Pressure	0.03~0.07 Mpa
Sound Level	d42dB(A)

Technical Specs

MOLECULAR SIEVE TECHNOLOGY

Energy Saving And Consumption Reduction
Clean Without Residue

Efficient molecular sieve technology ensures clean and energy-saving oxygen separation.

Rated Power	d11W DC 12V
Packing Size	415 x 396 x 235 mm

Features

APPLICATION SCENARIO

Widely Used

Designed for various users including the elderly, travelers, and drivers.

Key Features

5 Adjustable Gears • SOS One-Touch • Current Overload Protection • Compressor High-Temp Protection • Portable Backpack Included • Negative Ion Function • Atomization Function

Flow Rate vs Concentration

Flow Rate	Oxygen Concentration
2L	93%
3L	73%
4L	63%
5L	53%
6L	38%

Suitable For

Elderly, Pregnant Women, Mountaineers, Drivers, Travel, Home Use
