

Portable Solar Rechargeable LED Lantern

This portable illumination device is designed for various lighting applications. It features a robust construction with a green and black color scheme, incorporating a transparent housing for enhanced light diffusion.

Product Overview

Versatile Portable Illumination

This portable LED lantern provides a reliable lighting solution for both recreational and emergency situations. Featuring a durable ABS construction and an efficient solar-rechargeable design, it offers flexible power options to ensure you are never left in the dark. With multiple brightness modes and a water-resistant rating, it is built to perform in diverse environments.

Technical Specifications

Waterproof Level

IP44

Bulb Type

12x AB5ED

Brightness

50 Lumens

Power & Battery

Power Source

- Built-in 3.2V 500Ma Lithium Rechargeable Battery
- 4x D Dry Battery
