

# Portable Water Transfer Pump

This compact and portable water pump is designed for efficient water transfer in various applications. Featuring a robust engine, it delivers reliable performance for irrigation, drainage, and general water pumping needs.

## Overview

### Compact Portable Water Transfer Pump

The WP10B is a high-performance portable water pump designed for efficient fluid transfer in irrigation, drainage, and general water management applications. Powered by a reliable 2-cycle engine, it offers a maximum head of 26 meters and a flow rate of 12 cubic meters per hour. Its lightweight build and robust frame ensure ease of transport and reliable operation in diverse professional environments.

## Performance

### Operational Performance

**26 m**

Max Head

**12 cbm/h**

Max Flow

**2 HP**

Max Output

**6 m**

Max Suction

## Engine Specifications

### Engine Configuration

Parameter	Specification
Model	1E40F-5
Displacement	42.7 cm <sup>3</sup>
Ignition System	CDI
Starting System	Recoil start
Fuel Mixture Ratio	1:25
Fuel Tank Capacity	850 cm <sup>3</sup>

## Physical Properties

Connection Size	25.4mm (1 inch)
Net Weight	6.5 kg
Packing Size	350*240*310mm

## Logistics

### Container Loading

- 1356 pcs per 20ft container
- 2810 pcs per 40ft container

### Minimum Order Quantity

200

### Lead Time

25 days
