Product Overview

Professional Water Transfer Solution

This portable water transfer pump is engineered for reliability and high-performance in various demanding environments. Built with a robust frame for protection and easy mobility, it is powered by a high-efficiency combustion engine. The unit features durable housing materials, ensuring long-lasting operation even under tough conditions.

Technical Specifications

Engine Type	Combustion Engine
Primary Components	Air Filter, Fuel Tank, Fuel Primer Bulb, Fuel Shut-off Valve
Housing Construction	Durable reinforced polymer and metal components

Operational Controls

Control Status

ON • Manual Fuel Prime
